RIVESALTES CAMP MEMORIAL AND SALSLES FORTRESS DAY TRIP

RIVESALTES CAMP MEMORIAL TOUR

The Rivesaltes Camp Memorial was inaugurated in October 2015 and stands in the midst of the shacks that witnessed the fate of over 60,000 people. The marker is a unique site recognising the horrors of the 20th century: the Spanish Civil War, Second World War and wars of decolonisation.

The memorial is a historical and remembrance site that's part of the contemporary world. Its exhibitions and scientific and cultural events introduce history to visitors of all ages with a focus on children. The extraordinary building earned its architect, Rudy Ricciotti, the Équerre d'argent architecture award.

HALF-DAY
BANYULS-SUR-MER TOUR

Experience a unique place where sculpture, nature and agriculture come together south of Occitanie, deep in the Côte Vermeille where the Pyrenees dive into the Mediterranean: explore the sea, coves, vines and olive trees and meet our very own world-famous sculptor Maillol. Welcome to magical Banyuls-sur-Mer.

Tour of central Banyuls, guided vineyard tour with a Cru Banyuls and Collioure winemaker and guided olive grove tour with an olive oil producer followed by a wine, oil and artisan olive-based produce tasting.

AN OUTSTANDING LAND AND FINE WINE

If there's a vineyard in mainland France which has all the extremes, it's definitely Cru Banyuls and Collioure. A world of paradoxes has come to life in this place where nature itself seems to play on all its contrasts. The Côte Vermeille is home to 1600 hectares growing AOC and Vin de Pays wine: AOC Collioure, AOC Banyuls Grand Cru, AOC Banyuls, IGP Côte Vermeille in red, rosé and white (except Banyuls Grand Cru which is only available in red).

What can you expect from the Côte Vermeille? Age-old expertise, landscapes sculpted by vines, scenery carved out by schist walls, a land and people with personality.

SAMPLE ORGANIC BANYULS OLIVE OIL

Olive growing has been a key trade in Banyuls-sur-Mer for centuries. Who better than an olive farmer to introduce you to the business? Olivier Borrat loves his job and introduces you to his olive groves in the hinterland before tantalising your tastebuds with a tasting of his authentic olive oils. An unmissable and eye-opening experience. It's also the first organic olive farm on the Côte Vermeille (between Collioure and Cerbère) and the "olive" on the cake is that the world's rarest olive oil is made in Banyuls! That's all we're telling you, we'll let you experience Olivier Borrat's flavour sensations for yourself.

HALF-DAY
ELNE TOUR

"TOWN OF ART AND HISTORY, THE FORMER ROUSSILLON CAPITAL"

Elne was a main road and crossroads between Iberian countries and Mediterranean Gaul. It has had a strategic border position since Antiquity.

Elne is an ancient city that was Iberian 2700 years ago and called Illibéris, then the Romans renamed it Castrum Helenae which is where it gets its name Elna in Catalan or Elne in French. Elne was a seat of power in Roussillon before Perpignan even existed. It became a bishopric in the 6th century, which it remained until the 17th century with varying success. The bishop's seat left the ancient and medieval town with an impressive architectural and artistic legacy.

THE CLOISTER-CATHEDRAL AND JARDIN DES MÉTIERS D'ART

are fantastic relics that have stood the test of time to showcase art! Elne was a bishopric between the 6th and 17th century and still has its fantastic romanesque cathedral. It was consecrated in the 11th century and stands out for its square bell tower, marble doorway and opulent fixtures. The remarkable blue-veined white marble cloister captures the evolution between two eras, two styles and two states of mind: romanesque and Gothic.

Wander around the village to gaze at the old ramparts surrounding the hill and the beautiful bourgeois houses in the southern districts. The uptown is packed with artists and artisans based in the Jardin des métiers d'art (a pretty courtyard with plants): pottery, painting, photography, master chocolatier, glass blower, bookbinder etc.

TERRUS MODERN ART MUSEUM: HOMEGROWN ARTIST ETIENNE TERRUS.

This museum is 30m from the cathedral and celebrates the work of the landscape artist and iconic Elne personality Etienne Terrus (1857-1922). The artist was friends with famous names including Maillol, Matisse and Derain and did most of his work in Roussillon. Terrus started out as a classical portrait

and still life artist before making his mark in landscape art, sometimes by the sea.

CHÂTEAU D'EN BARDOU MATERNITY CENTRE: HISTORY AND HUMANITY

A memorial site to get to grips with one woman's battle: Élisabeth Eidenbenz, a member of the Swiss Red Cross children's aid. The young teacher converted this amazing little early 20th century château into a maternity centre between 1939 and 1944. The centre provided respite to mothers, Spanish refugees exhausted by the hardship they had endured at the Rivesaltes and Argelès camps, then Jewish women giving birth using fake names. Almost 600 children from a dozen nationalities were born here.

PORT-VENDRES TOUR

"PORTUS VENERIS, THE TOWN OF VENUS"

Port-Vendres is a natural deep water port which played a key part in maritime freight from Antiquity onwards. History is everywhere in this beautiful bay-shaped town in the midst of the mountains, sea and terraced vineyards: military architecture: Vauban fortifications, the obelisk to celebrate Louis XVI and signal tower combined with the coves and beautiful scenery make this an authentic and natural town with a fascinating history.

HISTORY TOUR AROUND VENUS PORT INCLUDING THE MAJESTIC OBELISK (1 HR).

Its hills form a marine amphitheatre that echo the prestige of its ancient name. If being named after the goddess Venus wasn't exciting enough, Port-Vendres whisks us away on a trip back in time from the first epic sea adventures to the first globalisation plans.

This 18th century obelisk is unique in France and celebrates Louis XVI. The 4 bronze bas-reliefs depict the abolition of slavery in France, free trade, naval

power and American independence in a nod to the Battle of Yorktown when troops from Port-Vendres helped America gain independence in 1781. The 4 corners of the fence around it have 4 allegorical trophies of Asia, Africa, Europe and America: the 4 known continents at the time.

Port-Vendres has been twinned with Yorktown in Virginia since 1990. The

towns are twinned because of their historical ties. Port-Vendres is where Louis XVI deployed the French regiments to help American rebels in their war of independence against the British.

sit masterpieces from France and abroad. It has digital tablets, a large screen to really get to grips with the pieces, virtual reality headsets for adventures, fun-filled resources such as educational games and computer-based Fablab classes where you can make your own items: flocking fabric, embroidery, 3D designs.

GUIDED TOUR OF CAP BEAR: A BREATHTAKINGLY IMPRESSIVE UNTAMED HEADLAND (1 HR).

See every side to Cap Bear which played a role in the Second World War and its lighthouse (listed as a Monument Historique) which has been proudly protecting the Port-Vendres beaches since 1905 in a breathtaking setting!

HALF-DAY DISCOVERY OF PEZENAS

FOCUS ON MOLIERE !

Jean-Baptiste Poquelin was born in 1622. The whole of France is preparing celebrations and commemorations, especially Versailles and Paris, where he achieved fame and wrote his greatest masterpieces.

In Languedoc, Pézenas is also preparing to celebrate Molière with whom it has a long and beautiful love history. The city built the only monument dedicated to him outside Paris...! In the castle of Prince de Conti, his protector, Molière will perform for the entire regional aristocracy. Near the « Maison Consulaire », he lent his talent to the « Etats Généraux du Languedoc ». In the Gély barbershop stall, he met Lucette, Scapin and other characters who would later become the heroes of his plays. A visit to Pézenas in 2022 is therefore a must. Let's go in the footsteps of the artist, in the private mansions, castles or inns that welcomed him, or in the Vulliod Saint-Germain

museum where you can see Molière's armchair... An exceptional journey in a preserved architectural setting, punctuated by beautiful art craftsmen's stalls.

Let's leave the last word to Marcel Pagnol: « If Jean-Baptiste Poquelin was born in Paris in 1622, Molière was born in Pézenas in 1650 ».
